September 12, 2017

Dear Neighbors:

In maintaining ongoing communication with our neighbors, Chevron Environmental Management Company (EMC) would like to notify you of some changes in the field work at the former Unocal Edmonds Bulk Fuel Terminal, in Edmonds, Washington.

We will be increasing our planned daily work hours from 8:00 AM to 5:00 PM to 7:00 AM to 6:00 PM on weekdays, and 10:00 AM to 6:00 PM on Saturdays in order to meet our schedule commitments. The increased work day hours and Saturday work hours are within the City of Edmonds permissible construction hours. As outlined in our previous letter, excavation of Detention Basin No. 2 is scheduled to continue for another 3 – 4 weeks.

Chevron EMC is working to complete Unocal's obligations for environmental cleanup at the Site under the direction of the Washington State Department of Ecology. For a detailed history of the Site and a description of the cleanup process, please visit Chevron's website: <http://www.unocaledmonds.info>.

We appreciate your patience and cooperation. If you have questions regarding this environmental cleanup project you may also contact Ecology's site manager for the project, Ron Timm, at (425) 649-7185 or ronald.timm@ecy.wa.gov, or you may contact me at (925) 842-4707 or KJolitz@chevron.com

Sincerely,

A handwritten signature in blue ink, appearing to read "Kim Jolitz".

Kim Jolitz
Project Manager, Chevron EMC
